

Volker Gruppe Job Description

Forklift Operative

Location: Glasgow, Scotland | **Department:** Operations Department

Role Summary

The Forklift Operative is responsible for the safe and efficient movement, loading, unloading, and storage of materials and finished products within the Glasgow operations facility, ensuring smooth workflow and site safety.

Key Responsibilities

- Operate a forklift truck (e.g., Counterbalance, Reach) safely and competently to move materials around the site.
- Load and unload delivery vehicles accurately and efficiently.
- Store materials in designated locations, adhering to safe stacking procedures and warehouse layout.
- Conduct pre-shift safety checks and report any mechanical faults or damage to the forklift.
- Assist with inventory counts and general warehouse duties when not operating the forklift.
- Strictly follow all site Health and Safety regulations.

Required Skills & Qualifications

- Current and valid Forklift Operator license/certification (e.g., RTITB, ITSSAR accredited).
- Proven experience operating a forklift in a fast-paced operational or warehouse environment.
- Demonstrated commitment to safety and precision.
- Physical fitness required for the manual aspects of the role.
- Reliable, responsible, and a good team player.
